(54) Title: PLANTS HAVING CHANGED DEVELOPMENT AND A METHOD FOR MAKING THE SAME

(57) **Abstract:** The present invention concerns a method for changing plant development and organ formation, in particular accelerating rate of development, increasing size and number of organs and promotion of early flowering, by increased or decreased expression of a cdc27a nucleic acid and/or increased or decreased activity and/or levels in a plant of CDC27A protein. The invention also relates to transgenic plants having changed development, which plants have increased or decreased expression of a nucleic acid encoding a CDC27A protein.
